

# HEALTHCARE PROVIDERS TAP PURE STORAGE To Be More Innovative and Enhance Care Experience

Leading organizations modernize infrastructure to increase focus on patients, drive IT transformation, and reduce storage costs.

## Contra Costa Health Services

“ Pure Storage has become a background technology allowing us to focus on other projects impactful to improving patient care. ”

**Jeffrey Tang** CTO

## St. Luke's Health System

“ Pure was simple to install and manage. We've put the technology to the test and it keeps working time after time, which is exactly what we need from our storage system. ”

**Brett Taylor** Director of IT Infrastructure & Operations

## Riverview Health

“ Business continuity, ease of administration, consistent read and write performance, and some of the best technical support we've experienced from any vendor are primary reasons why we turn to Pure Storage. ”

**Jason Pearce** Director of IS

## University of Kansas Hospital

“ Pure Storage allows the team to spend more time on projects that contribute to improving our patient's experience and ultimately help provide a better experience to patients as well as clinicians at the hospital. ”

**Mike Schlenk** Asst. Director of Server Enterprise Storage
