

CUSTOMER USES OF FLASHBLADE

- 1 POWERS**
one of the world's most advanced AI supercomputers

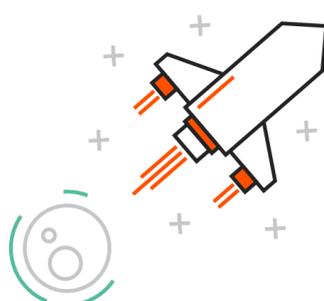

- 2 HELPS**
large telecom stay ahead of hackers and thieves by analyzing activities in real-time

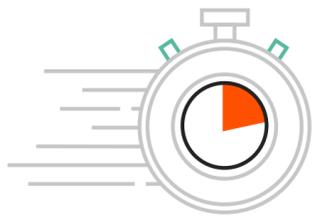

- 3 SHORTENS**
design cycles for some of the world's largest, most powerful chips

- 4 ACCELERATES**
weather and rocket simulations to enable successful launches

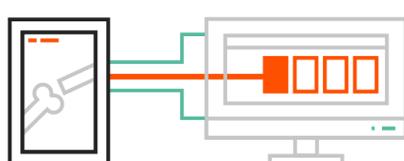

- 5 ENABLES**
UC Berkeley Spark team to speed queries 24x, from 12 hours to 30 minutes

- 6 POWERS**
the Mercedes F1 team to optimize car design to shave entire seconds off of their racing time

- 7 DELIVERS**
medical images to patients faster for a large network of doctors in mid-west USA

- 8 HELPS**
geophysicists to find oil in the Gulf of Mexico

- 9 CAPTURES**
body camera video for law enforcement in the City of Davenport, Iowa

- 10 ACCELERATES**
genomic analysis at leading research institutes for faster, more personalized patient care

ARE YOU READY TO HARNESS THE POWER OF DATA AT SCALE?

In the new age of big data, you need a platform that is built to deliver at the speed of your data. FlashBlade™ is the industry's first cloud-era data platform purpose-built for modern data analytics, driving today's important discoveries, insights, and creations.

Visit purestorage.com/flashblade to learn more about how you can transform big data into big intelligence.
