

SIMPLE, RELIABLE ALL-FLASH STORAGE FOR EDUCATIONAL INSTITUTIONS.

Store private data securely, deploy personalized services rapidly.

Connected services are becoming key differentiators for schools seeking to attract the best students. Yet, as the demand for always-on services increases, so does the pressure on budget and time-strapped IT teams.

Is your storage technology doing what it can to meet this growing demand? Or is it doing all it can just to keep up? Pure Storage understands the mounting issues educational institutions face—and why traditional disk-based storage solutions won't solve them.

Use this guide as a quick reference to the real-world benefits of the **Pure Storage FlashArray**.

To learn more visit purestorage.com or call **(800) 379-PURE** discuss your school's unique storage needs.

✔ PURE FACT:

At Judson Independent School District, students spend up to 33% more time on active learning and application login time has gone down by 95%.

PURE IS ENLIGHTENED STORAGE

Pure Storage FlashArray is the only storage solution that ensures VDI performance and an enhanced user experience to meet the ever-increasing demands of students and faculty:

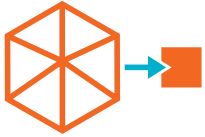

- **Exceed performance expectations** while simplifying IT transformation
- **Ensure non-stop availability** of new and continually evolving applications
- **Confidently launch apps** from a single, powerful storage platform

STORAGE MADE SIMPLE

Contract Vehicles include:

- NASPO ValuePoint (formerly WSCA)
- DIR
- CMAS

The 3 ways Pure Storage FlashArray helps schools and districts thrive.

SIMPLIFIES IT with storage that drives rich educational services online:

- 99.999% availability ensures 24/7-access to online services
- Simplicity and ease of management allows for greater innovation
- Controller upgrades included in maintenance every 3 years
- Ongoing maintenance and support for all components, including flash
- Eliminates the need for downtime and forklift upgrades

ACCELERATES access to (and delivery of) IT services through high performance future-proof storage:

- All-Flash storage delivers a dramatic improvement in application performance over disk
- Responsiveness helps schools enhance service levels
- Future-proof *Forever Flash* program eliminates forklift upgrades
- Breakthrough performance helps ensure testing compliance

REDUCES the costs and complexity of IT processes with a significantly smaller storage footprint:

- 5-10x more efficient than disk, and with lower power requirements
- Cuts overhead without compromising quality-of-services
- Fewer data migrations means lower risk of lost data
- Unparalleled support helps IT teams solve challenges quickly

SCHOOLS THRIVE AND ANALYSTS RECOGNIZE: Pure Storage has earned praise from of a growing number of thriving educational institutions, and 'Leader' recognition from the 2015 Gartner Magic Quadrant for Solid-State Arrays for the second consecutive year.

Learn how your institution can accelerate storage performance while decreasing total costs and complexity. Visit purestorage.com or call (800) 379-PURE to discuss your storage needs.
